TWO COLORWAYS

Teal reveal

Coral reveal

The hidden layer — the peek and the caret — carries the accent colour. **Teal** is the core, technical mark; **coral** is the warm alternate. Whichever the mark uses, the wordmark's "Click" stays teal so the system reads as one family.

PALETTE

**Navy** #0E1626

Ink, dark grounds, the key face on light

**Teal** #1E9C8C

Primary accent, the reveal, "Click"

**Off-white** #F2F5F7

Light grounds, the key face on dark

**Coral** #E8674C

Warm accent — alternate reveal, buttons, the coffee meetup

CLEAR SPACE & MINIMUM SIZE

Keep clear space around the logo equal to **half the key's height** on every side. Never crowd it with other marks or text.
